PROFESSIONAL SUMMARY

Passionate Software Developer with 5+ years of experience crafting high-performance web applications in SaaS and WordPress environments. Specialized in React, Next.js, and AI-powered applications. Core contributor to products serving 7M+ users worldwide. Experienced in building workflow automation systems, AI integrations (OpenAI GPT-4, Claude AI), and leading frontend architecture migrations.

TECHNICAL SKILLS

Frontend: React.js 19, Next.js (SSR, ISR, RSC), TypeScript, JavaScript ES6+, Redux Toolkit, React Query, Zustand

AI & Tools: OpenAI GPT-4, Claude AI, RAG Systems, Framer Motion, ReactFlow

Styling: Tailwind CSS, SASS/SCSS, CSS3, shadcn/ui, Responsive Design

Backend: Node.js, Express, Supabase, PHP, MySQL, PostgreSQL, MongoDB

Web3 & Blockchain: Solidity, Hardhat, OpenZeppelin, Wagmi/Viem, RainbowKit

WordPress: Custom Themes, Gutenberg Blocks, Plugin Development, Astra Theme

DevOps: Git/GitHub, Vercel, Agile/Scrum, NPM/PNPM

PROFESSIONAL EXPERIENCE

Senior Software Developer / Front-end Lead
Brainstorm Force LLC • Feb 2023 – Present • Remote

- Led React to Next.js 14 migration for OttoKit, reducing load time by 60% and increasing customer retention from 65% to 91% (40% improvement)
- Architected interactive canvas workflow builder using ReactFlow v12, enabling no-code automation for 10,000+ active users
- Built responsive onboarding flows that increased Week-1 active users from 1,200 to 1,560 (30% growth)
- Core contributor to Astra Theme (7M+ installations) — fixed critical rendering bugs affecting 500K+ users
- Developed 15+ custom Gutenberg blocks for WordPress, improving editor UX by 25%

Products: OttoKit • SureCart • Astra Theme • Sigmize

Senior Web Developer
VYK HealthCare Pvt. Ltd. • March 2021 – Feb 2023 • Remote

- Built patient portal from scratch, acquiring 3,000 new users in first 6 months (30% customer growth)
- Implemented OAuth 2.0 and AES-256 encryption, reducing security vulnerabilities by 50%
- Optimized WordPress sites to load in <2 seconds (from 5.2s), improving SEO ranking by 35%
- Integrated webhook automation with Zapier and Make.com, automating 80% of appointment confirmations

WordPress Developer
Atomic House • March 2020 – Feb 2021 • Remote

- Converted 30+ Figma designs to pixel-perfect, responsive WordPress themes with 99% design accuracy
- Built reusable ACF component library used across 12 client projects, reducing dev time by 40%
- Developed WooCommerce customizations that increased client conversion rates by 18%

FEATURED PROJECTS

StakeDApp — ERC-20 Token Staking Platform | Live Link

Full-stack DeFi staking application using Synthetix-style reward distribution. Features STK token staking with RWD rewards per second, three Solidity smart contracts with ReentrancyGuard protection, deployed on Sepolia.

Tech: Solidity, Hardhat, Wagmi v2, Next.js 14

PropChain — NFT Property Marketplace | Live Link

Decentralized property marketplace with ERC-721 NFT minting, escrow-backed offers, and passive PROP token yield. Four Solidity contracts with 5% fee system and 48 passing tests. Deployed on Sepolia.

Tech: Solidity, OpenZeppelin, Wagmi v2, Next.js 14

ReatorAI — AI Content Creation Platform | Live Link

AI-powered viral content research tool reducing research time from 60 to 10 minutes. Features outlier detection, channel watchlist, and AI script generation.

Tech: Next.js, OpenAI, TypeScript, Supabase

AI Chatbot Platform — Conversational AI | Live Link

Advanced AI chatbot with GPT-4o, real-time web search, multi-file handling, and transparent reasoning display.

Tech: Next.js 16, React 19, OpenAI GPT-4o, shadcn/ui

PDF Q&A AI SaaS — Document Analysis | Live Link

Upload PDFs and ask questions using Claude AI with RAG architecture. Instant answers with source citations.

Tech: Next.js, Claude AI, RAG Systems, TypeScript

ChefMate — AI Recipe Generator | Live Link

Generates personalized recipes from available ingredients with dietary customization and PWA support.

Tech: Next.js, OpenAI GPT-4, PWA

LinguaChat — AI Language Learning | Live Link

AI companion for practicing real dialogue in 5+ languages with instant grammar corrections and adaptive difficulty.

Tech: Next.js, OpenAI, TypeScript

Study Buddy — AI Study Companion | Live Link

Transform educational content into AI-generated quizzes and smart flashcards with spaced repetition.

Tech: Next.js, OpenAI, TypeScript

NGLFS — Anonymous Feedback Platform | Live Link

Anonymous messaging platform for honest feedback without signup. Features encrypted data storage, hashed IP addresses, and analytics dashboard.

Tech: Next.js, Node.js, Supabase, TypeScript

EDUCATION

Bachelor of Engineering — Information Technology

Mumbai University
